Dear Sir or madam,

This is to notify you of an upcoming noise variance waiver for construction activities occurring at the Silverstone of Rockville project near the intersection of West Gude drive and MD Route 355. The construction activities related to the tower crane erection and large concrete placements will be taking place starting 12/18/19. A total of 8 separate early start (5 am) events are anticipated from 12/18/19 to 5/15/20. Actual dates for these events are tentatively set for 12/18/19, 2/28/20, 3/20/20, 4/1/20, 4/13/20, 4/23/20, 5/5/20 and 5/15/20.

For the concrete pours, the bulk of the operations will include delivery of concrete to the jobsite by ready mix trucks and pumping of concrete using a pump truck. For the tower crane erection, the bulk of the work will consist of delivery of crane sections by flat bed trailer trucks, assembly of the erecting crane and operation of the erecting crane.

The crews onsite have been instructed to work as quickly and as quietly as possible. Schuster does not anticipate the noise from these activities to be blaring or create significant disturbance to the neighboring residences.

Should you have any concerns or complaints, please contact our main office at 410-363-9620 or the Project Manger at the number listed below.

Thank you,

A handwritten signature in blue ink, appearing to read 'DZaka', is written over a light blue rectangular background.
